

Press Release

Product Enhancement – 3A Foot

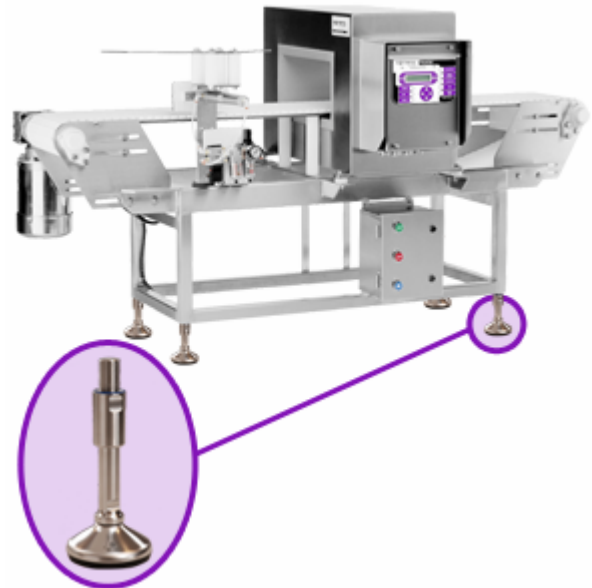

June 2, 2010

Hygienic Machine Leveling Feet for Phantom Metal Detectors

We are pleased to announce the new hygienic machine feet for equipment used in the food, dairy, brewery and pharmaceutical industries – applications with the strictest requirements for hygiene and cleaning. Certified according to the 3A hygiene standard 88-00 and the EHEDG hygiene standard TYPE EL-CLASS 1, the 3A Feet are easy to clean, and enable the end user to reduce the consumption of water and energy in the cleaning process to an absolute minimum, saving both time and money.

Fundamental Features of the new 3A Foot:

- marked with the 3A and EHEDG logo
- stainless steel construction
- absence of unnecessary corners and edges which is the best possible design for facilitating cleaning
- vulcanized rubber accommodates slopes (up to 10°) on the floor/equipment and is designed to avoid capillary action
- ability to fix to the floor
- stability under load
- stands solidly and securely on the floor with vibration absorption capacity
- adjustability (approx. 1.5") without exposing the threads
- spindle is covered by a sleeve and sealed with o-rings at both ends
- the sleeve covers the thread and also functions as a nut
- all moveable parts in the foot are sealed hygienically
- 3A, EHEDG and USDA certificate (available on request)

Fortress has proven protection. Guaranteed.

Simple Operation • Outstanding Reliability • Exceptional Performance
